What is the Shawnee Virtual School (SVS)?
The Shawnee Virtual School (SVS) is a program that offers interactive online courses to elementary and secondary students. Courses are delivered using a “learning management system” through the Internet and available to students 24/7. Students are actively engaged in online discussions and learn to track messages, submit documents electronically, and meet online with teachers and students through a “virtual classroom”.

★ When do classes begin & end?
Online courses begin and end with the school’s academic calendar each year.

★ Who will teach the course?
Courses are monitored by highly qualified teachers who promote engagement in the online environment. Teachers strive to foster an online community within their classes.

★ What about training?
Once a student is enrolled in an online course, training sessions are scheduled and announced by a Virtual School Administrator.

★ How do I take mandated testing?
All online students report to an on-site location to take the required tests, semester exams and AP tests.

★ What happens if I need technical assistance?
Students should notify their online teachers immediately via email, text, or established form of communication.

★ What is the difference between SVS and traditional brick-and-mortar school?
Curriculum requirements between SVS and traditional schools are the same, however there is a significant difference in the flexibility offered to all SVS students in the way they can earn their courses/credits online.

★ Is there a cost to take the course?
Courses are free to Shawnee Public School Residents.

Shawnee Virtual School provides PreK-12th grade students with online learning opportunities.

Virtual Elementary and Secondary School
The Shawnee Virtual School offers high quality online courses. Virtual students engage in an interactive curriculum that blends online and offline learning experiences. Students enrolled in virtual learning courses may access their coursework through the Internet. With our full complement of course offerings, students participate and communicate with highly qualified teachers in a variety of subjects. The Shawnee Virtual School moves students beyond the walls of the traditional classroom and provides students an opportunity to experience new technologies and expand their skills for the 21st century.

Students also have an added benefit of access to all extracurricular activities that Shawnee Public Schools has to offer, including band, sports, choir, dances, graduation and much more!

Technology Assistance
Shawnee Public Schools, in conjunction with members of the business community, has established a program to provide students access to technology resources necessary for virtual education.
Shawnee Public Schools is pleased to offer online education for residents of Shawnee, Ok. We invite our students and their families to preview the Shawnee Virtual School when making important decisions about enrollment for the 2020-2021 school year. It is an easy process to get started using the procedures provided on the SPS website.

Courses have been designed to meet full year or semester academic requirements. Shawnee Virtual School offers courses in both year-long or semester format to help students achieve original credit or credit recovery.

If you are interested in participating in the Shawnee Virtual Elementary or Secondary Programs, contact the Virtual Education Director or the Enrollment Center.
